

# Rokiškis District Municipality

CONTACT BOOK FOR INTERNATIONAL COOPERATION

My  
project  
yours

Each of us has something we can share. Togetherness brings us closer and colours our daily activities, allowing us to pool our knowledge for a common purpose.

So let us look for common touch points and work together. Fostering mutual understanding, respect and trust, we can build a strong partnership that is essential to today's sustainable world.

Let us pool resources together. Our communities can share best practices and harness different perspectives to find innovative and inclusive solutions.

We will find compromises and overcome language barriers or cultural differences.

Let us unite to build a better future for all.

*Mr. Ramūnas Godeliauskas*  
Mayor of Rokiškis District Municipality

ROKIŠKIO RAJONO  
SAVIVALDYBĖ

## ICE STOCK SPORT ROKIŠKIS

Activity field: **Sports**

We organize Bavarian cobblestone (Aisštok), corn board, curling games and competitions for children and adults

### **Programmes of interest:**

The organization is open to proposals for projects and cooperation in its field of activity

## JUOZAS KELIUOTIS PUBLIC LIBRARY

Activity field: **Organization of funds, Library service Information service, Culture, Cultural and other education not elsewhere specified**

Juozas Keliuotis Rokiskis District Municipal Public Library is a non-profit organization founded in 1923. It is an innovative, modern, environmentally friendly, consumer-oriented institution. The Library fulfils cultural, information and educational functions. Juozas Keliuotis public library was one of the first libraries in Lithuania that introduced a centre of public Internet access and started computer literacy courses for citizens. In addition, the library offers exhibitions and other cultural events open to all visitors. Currently, a public library and three town and 35 village branch libraries provide services to the district residents. About 48% of the population uses library services, and there are up to 230 thousand visitors to the libraries per year. All the libraries are provided with computers and support public access to the Internet.

### Programmes of interest:

Interreg, Erasmus+

### Desired partnership roles:

- a beneficiary
- or a partner

Open for other direct cooperation between institutions/ organizations.

## ROKIŠKIS NURSERY - KINDERGARTEN NYKŠTUKAS

Activity field: **Education, preschool education**

We are a preschool educational institution open to the community, focused on children and their families, fostering health ideas, theatrical expression, developing competencies necessary for life, and meeting the child's natural needs. Ecology, sustainability and harmony are essential to us.

We strive to make every child's day spent at our educational institution emotionally safe, exciting and unique, providing knowledge, encouraging them to take care of their health, and teaching them to feel the beauty of nature.

The institution's environment is safe and healthy for the child's growth, with excellent conditions for movement, nature observation, information search and discovery, and an emotionally and socially safe community based on the principles of harmony. Moreover, secondary raw materials are creatively used in the educational process and activities in the field, creating a sustainable consumption culture.

### Programmes of interest:

Open to proposals for projects and cooperation in its field of activity

### Desired partnership roles:

- a beneficiary
- or a partner

## ROKIŠKIS NURSERY - KINDERGARTEN PUMPURELIS

Activity field: **Preschool education**

Nursery - kindergarten "Pumpurėlis" is a modern, constantly changing educational institution where it is safe to learn, work and create. We provide high-quality preschool education and create safe, healthy conditions for children to grow up as proactive, creative, and open-minded people. We form the values of the family and the child, promote community spirit, and nurture the nation's culture. We improve and create new outdoor and indoor educational environments that encourage the creativity and development of students.

### Programmes of interest:

Open to proposals for projects and cooperation in its field of activity

### Desired partnership roles:

- a beneficiary
- or a partner

Open for other direct cooperation between institutions/ organizations.

### Contacts:

pumpurelisrokiskis@gmail.com  
<https://www.rokiskiopumpurelis.lt/>

## ROKIŠKIS YOUTH CENTRE

Activity field: **Work with youth, non-formal education, education supplementing formal education, cultural education, adult education, etc.**

We work with youth, and the process is essential here, not the result. Anyone who wants can come and doesn't have to do what others do. The youngsters can be safe and observe their peers' environment. The target group is active and timid young people aged 14-29. They can experiment, try themselves in various activities, and act according to their needs. The employees observe the young people and give advice only at the right moment: they learn to do everything themselves. The leisure hall has billiards, table tennis, table football, air hockey tables, a computer, a projector, and music speakers. There is a place to play board games, a rest area with beanbags, a DJ area, and a relaxation room. During the warm season, activities are

also outside the youth centre. The centre provides youth information and counselling services. The centre is a regional partner of Eurodesk and is also accredited under the Youth Voluntary Service Program. In non-formal education services, some activities complement the formal education of primary and secondary education in Art. Non-formal education classes "Knowledge and expression of art", "Weaving with wicker", and "Robotics" are held. Also, there are services for adults "Artistic self-expression". Since 2009, children's summer recreation camps have been organized in Žiobiškis tourist base. The activities are during the autumn and winter school holidays.

### Desired partnership roles:

- a beneficiary
- or a partner

Open for other direct cooperation between institutions/ organizations.

### Contacts:

### Programmes of interest:

Erasmus+, Nordplus, European Social Fund+, Creative Europe. Open to proposals for projects and cooperation in its field of activity

## JUODUPĖ GYMNASIUM

Activity field: **Education**

Juodupė Gymnasium educates students from 6(7) to 18 years old according to primary and basic education programs and an accredited secondary education program. There is a sufficient supply of educational subjects.

The gymnasium is a democratic, creative, modern educational institution open to change and innovation, which participates in local and international competitions, projects, olympiads and seminars.

It has a non-formal education section where students are taught drawing, singing, dancing etc.

The school is proud of its history, traditions, events, connections with the local community, and students' artistic and sporting achievements.

### Desired partnership roles:

- project partner
- other direct cooperation between institutions/ organizations

### Contacts:

juodupe.gimnazija@gmail.com

<https://jdpg.lt/>

### Programmes of interest:

Erasmus+, Nordplus, European Social Fund+, Creative Europe. Open to proposals for projects and cooperation in its field of activity

## POETRY CLUB VAIVORYKŠTĖ

Activity field: **Literature, Culture,**  
**Other education not elsewhere classified**

The club aims to bring writers together to write, showcase their talents, promote creativity, and preserve and promote their region's literature, culture, traditions, and heritage. The club also organizes cultural events, and its members attend poets' gatherings, meetings, and events in the district and throughout Lithuania, presenting books they have written.

### Programmes of interest:

Erasmus+, Creative Europe

### Desired partnership roles:

- project partner
- other direct cooperation between institutions/ organizations

### Contacts:

[dvdrugelis00@gmail.com](mailto:dvdrugelis00@gmail.com)

## PLC ROKIŠKIO KOMUNALININKAS

Activity field: **Waste collection and management, territory maintenance and cleaning, street lighting, transport and machinery rental, heat supply, sauna, and laundry**

We are a service company. We maintain, clean and cut grass in the territories located in the town of Rokiškis. We perform landscaping works. We supply heat and hot water to the residents and schools of Juodupė, Obeliai, Kamajai and Pandėlys.

### Programmes of interest:

Open to other proposals for projects and cooperation in its field of activity

### Desired partnership roles:

- other direct cooperation between institutions/ organizations

administracija@rokiskioligonine.lt  
<https://www.rokiskioligonine.lt/>

## YOUTH ORGANIZATIONS UNION APVALUS STALAS

Activity field: **Non-formal education, citizenship education, youth social skills and competence development, ecology, youth mental health improvement, healthy lifestyle, and culture.**

Rokiškis youth organizations union "Apvalus stalas" represents youth interests and youth policy in Rokiškis district. A formative organization aims to improve the operating conditions of youth organizations, promote youth initiatives, submit proposals to state and self-government institutions solving youth problems, cooperate in the field of information exchange, and gather youth organizations to solve everyday problems.

### Programmes of interest:

Erasmus +, European solidarity corps

### Desired partnership roles:

- a beneficiary
- or a partner

Open for other direct cooperation between institutions/ organizations.

### Contacts:

rokiškio.as@gmail.com

<https://www.apvalusstalas.lt/>

## RUDOLF LYMAN MUSIC SCHOOL

### Activity field: **Education**

The school works according to music and dance education programs, supplementing formal and non-formal education for children and adults. The school provides opportunities for students of various abilities, needs and ages to meet their musical self-expression needs and develop different general competencies.

The school has youth and youth choirs, vocal, wind, stringed instruments, ukulele, accordion, and guitar ensembles. In addition to daily artistic education classes, regional, national and international competitions, festivals, and projects are organized - "Let's make music together", "My violin friend", "Spring sounds", "Aukštaitija talents", "Let's fly with the wings of songs", "Child and guitar", "Rhythm of Spring", "Fiesta of Pipes", June music festivals, theatrical "Winter Music" concerts, various civic-creative initiatives are encouraged. Furthermore, the school organizes children's summer employment programs.

### Programmes of interest:

Open to other proposals for projects and cooperation in its field of activity

In the choreography department, students develop the skills of classical, Lithuanian folk stage, world nations, contemporary, domestic, and folkloric dance, learn improvisation, acting, visual art and play a chosen musical instrument.

Folk dance ensemble "Nemunėlis", contemporary dance group "Fiesta", and classical dance group "Adagio" have been successfully operating in the school for many years.

The school's students and teachers actively participate in regional, national, and international competitions, festivals, projects and various celebrations and events. In addition, they show their concert programs in Lithuania and abroad.

### Desired partnership roles:

- a beneficiary
- or a partner

Open for other direct cooperation between institutions/ organizations.

## OBELIAI GYMNASIUM

Activity field: **Education**

Obeliai Gymnasium is a modern school open to change. Our priorities:

- inclusive education - attention to every child by teachers and educational support specialists;
- a safe environment - the implementation of the long-term Olweus bullying prevention programme, which meets the requirements of the programme standard;
- community - traditions that bring the community together;
- citizenship initiatives - cooperation with the Museum of the History of the Freedom Struggle in Obeliai and a project to commemorate the memory of Mykolas Römeris.
- diverse education for children - the school has a non-formal education department, which most pupils attend.

### Programmes of interest:

Open to other proposals for projects and cooperation in its field of activity

OBELIŲ SOCIALINIŲ  
PASLAUGŲ NAMAI

## OBELIAI SOCIAL SERVICE CENTRE

Activity field: **Social Services**

The Obeliai Social Services House is an organisation that aims to meet the cultural needs of the local community by preserving and continuing the ethnic traditions of the region, fostering the culture of the area, organising amateur and professional art events, and providing various other cultural services. It also carries out project activities.

We organise entertainment, mass events, national and calendar holidays, commemorations of anniversaries, and various exhibitions.

The organisation promotes and develops the artistic activities of the community members, brings together art collectives and individual performers of different genres and age groups, coordinates the activities of the amateur art collectives of the cultural centre, represents the activities of the amateur artists

of the region and promotes and disseminates professional art. Open youth work involves young people who are socially excluded and disadvantaged (14-29 years old), organising safe and productive leisure time and helping them to integrate into society without losing their identity. It takes care of disseminating ethnic and cultural heritage, revitalises and gives meaning to Lithuanian folk traditions, rites and customs, and runs educational programmes for people of all ages in the community.

### Desired partnership roles:

## JUOZAS TUMAS-VAIŽGANTAS GYMNASIUM

Activity field: **Education**

Rokiškis Juozas Tumas - Vaižgantas gymnasium is the only school in Rokiškis that provides secondary education. Pupils aged 15-19 study in the gymnasium.

The gymnasium actively participates in national and international projects and the international conservation school program. The gymnasium is a STEAM network school. Students are encouraged to cooperate and work in a team in the educational process, and various educational methods and innovations are combined. In the I-II grades of the gymnasium, education is supplemented by project activities, and students are encouraged to participate in contests, campaigns, and events. Students can do practical work in the gymnasium's chemistry and biology laboratories, auditoriums and other educational institutions (VGTU, KTU, VU, etc.). VILNIUS TECH class optional informal activities are offered to students of II-III grades of the gymnasium, focused on the fields of physics,

chemistry, mathematics, economics and information technology. There are also opportunities to participate in the Rokiškis engineering class project activities. The gymnasium offers a wide range of STEM subject modules and electives (Economics and entrepreneurship, drawing, technology (mechanical engineering)).

Our gymnasium is a modern, safe, open school that adheres to the principles of democracy. It also focuses on human values, protecting cultural heritage and fostering school traditions. Gymnasium creates favourable conditions for development and lifelong learning. Teachers make every effort, working in changing situations and qualitatively meeting the needs of society in educating the younger generation, effectively organizing the educational process, searching for innovations and implementing them.

Open to other proposals for projects and cooperation in its field of activity.

### Desired partnership roles:

- the main project implementer
- project partner
- other direct cooperation between institutions/ organizations

### Contacts:

tpaveldas@gmail.com

## ROKIŠKIS NURSERY-KINDERGARTEN VARPELIS

Activity field: **Education**

The kindergarten provides preschool and pre-primary education. The kindergarten performs educational, social and cultural functions. The preschool groups work according to the kindergarten's preschool education programme, 'Cognitive path'. The preschool group follows the general preschool education programme.

Children with special educational needs are educated in an integrated way in "Varpelis". The children participate in various educational trips, projects, quizzes, festive concerts, entertainment, mornings and evenings with parents, etc. In addition, children and teachers actively participate in multiple international, national and municipal events. The institution has all the necessary conditions for education, work and recreation,

including spacious classrooms equipped with educational tools and SMART boards.

The kindergarten has an effective child support system. The kindergarten has a team of specialists to support the children's needs, including a speech therapist, special educator, social educator, art teacher, movement correction specialist, non-formal education teacher, and teaching assistant.

One of the kindergarten's distinctive features is its active participation in international projects. 77% of the teachers are involved in Erasmus+ project activities. Teachers successfully integrate international projects into the educational process. This allows teachers to communicate and cooperate with partners in Lithuania and abroad to enrich and diversify children's education, share best practices and improve their skills. By working with European schools and communities, the kindergarten contributes to a sense of a united European community. Teachers' innovativeness and creativity, mastery of modern communication technologies and ability to work as a team help them choose a broader range of ways of communication and cooperation. Participation in Erasmus+ projects helps sensitise children's thinking about the real world and develop beneficial experiential skills, teamwork, creativity and problem-solving, as well as their STEAM skills through project-based experiential learning.

## J. VIENOŽINSKIS' FATHERLAND COMMUNITY

Activity field: **Culture, art, education**

We carry out our activities in the homestead and memorial museum of the artist and teacher Justinas Vienožinskis. The list of activities includes a wide range of projects: Plein-air workshops for professional and amateur artists, children's camps, and education funded by the Passport to Culture. The homestead is a protected state cultural heritage site, so we pay special attention to preserving cultural heritage in our activities. During the project Art and Craft Space "Culture Laying," we will set up a space for ceramics and wool processing education.

### Programmes of interest:

Open to other proposals for projects and cooperation in its field of activity.

### Desired partnership roles:

- a beneficiary
- or a partner

Open for other direct cooperation between institutions/ organizations.

### Contacts:

nijole.eureka@gmail.com

## PUBLIC HEALTH BUREAU

Activity field: **Health prevention, health care**

The main objective of the Bureau's activities is to take care of the health of the inhabitants of the Rokiškis district municipality, to carry out municipal public health surveillance in the territory of the municipality (several municipalities), regulated by the Laws of the Republic of Lithuania and other legal acts, to reduce morbidity and mortality rates of the inhabitants, to improve the quality of life, by providing high-quality public health services.

### Programmes of interest:

We are a partner in the Erasmus+ project. We implement 2014-2021 2 instruments of the European Economic Area and Norwegian Financial Mechanisms.

### Desired partnership roles:

- a beneficiary
- or a partner

Open for other direct cooperation between institutions/ organizations.

## JUOZAS TŪBELIS PROGYMNASIUM

Activity field: **Education**

Rokiškis Juozas Tūbelis progymnasium is a school that implements the primary education programme and the first part of the basic education programme. The school is a medium-sized school with more than 600 pupils. The conditions are perfect for the quality implementation of educational content. The information system Google Workspace for Education is used for teaching, quality digital teaching tools and well-equipped classrooms. The school is strong in this area and has a clear strategy to follow. The school organises the educational process imaginatively. There are integrated lessons and projects in different subjects.

STEAM activities involve exploration, construction, programming, production and creation. Lessons take place in non-traditional environments: museums, libraries, and nature.

The school takes into account individual student needs. Children have the opportunity to develop the basics of engineering and programming. Experienced professionals help each pupil to discover and realise their talents.

The school cooperates internationally in the Erasmus+ and eTwinning programmes and joins Coding Week and other initiatives.

### Desired partnership roles:

- a beneficiary
- or a partner

Open for other direct cooperation between institutions/ organizations.
